CAREER OBJECTIVE

Motivated first-year B.Tech Artificial Intelligence and Data Science student interested in Artificial Intelligence, Machine Learning, Python programming and innovative technology. Eager to develop technical skills, work on real-world projects and participate in hackathons.

EDUCATION

B.Tech in Artificial Intelligence & Data Science — **First Year (2024 - Present)**

Sri Venkateshwara Hi-Tech Engineering College, Gobi

TECHNICAL SKILLS & AREAS OF INTEREST

Technical Capabilities:

- Python Programming (Beginner)
- C Programming (Beginner)
- Artificial Intelligence
- Machine Learning Fundamentals
- Data Science Fundamentals
- Generative AI & Prompt Engineering
- Front-End Development Fundamentals

Core Areas of Interest:

- Artificial Intelligence
- Machine Learning
- Data Science
- Generative AI
- Software Development
- Technical Innovation

PROJECTS (CONCEPTS & UNDER DEVELOPMENT)

1. Waste2Watt AI [Concept / Project Under Development]

- AI-assisted waste identification and segregation concept.
- Waste-to-energy conversion concept.
- Air filtration concept.
- Monitoring dashboard for real-time ecological metrics.

2. MediBand AI [Concept / Project Under Development]

- ESP32-based wearable health-monitoring concept.
- ECG monitoring.
- Heart rate monitoring.
- SpO2 monitoring.
- Temperature monitoring.
